

**Administrative Procedure 8001**

***Use of School Facilities***

The Board of Education accepts the premise that all school facilities are public facilities and should be available to the public on a rental basis as outlined by the attached regulations, provided that school programs and activities are given priority.

The responsibility for administering and maintaining such regulations is vested in the secretary-treasurer who shall amend the regulations as necessary and provide prior notice of such changes to the board as they occur and have the policy reviewed annually by the Finance and Facilities Committee.
