## 2. **Determination of Available Space and Facilities**

Section 74.1 of the *School Act* establishes priorities for enrolment to apply if the board determines that space and facilities are available in a school.

- a) For purposes of section 74.1(6) and (7) of the *School Act*, space and facilities are available in a school to enroll an applicant if there is capacity to provide the applicant with an educational program appropriate to the applicant’s needs, taking into account both physical and educational resources, after reasonable enrollment projections have been made to allow for accommodation of continuing students, district programs located in the school, and (if applicable) a kindergarten program adequate to accommodate the projected enrolment of catchment area children.
- b) The Board of Education shall decide whether space and facilities are available in individual schools and educational programs for purposes of section 74.1(6) and (7) of the *School Act*, in accordance with paragraphs 2.1 and 2.3.
- c) Decisions will be made in consultation with the principal of the affected school and will be based on program capacity, including consideration of the following factors:
  - i) the operating capacity of the school as defined by the Ministry of Education;
  - ii) staff assigned to a school by the district;
  - iii) the physical space in which instructional programs operate in the school;

- iv) the ability of the school to provide appropriate educational programs for the applicant and other students;
  - v) the needs of other programs located in the school.
- d) After enrolment of continuing students, if the requisite space and facilities are determined to be available and application deadlines and other requirements have been met, transfer applications and applications from new students will be accepted in the following priority order, subject to any permitted sibling preference:
- i) catchment area child who attended the school during the previous school year;
  - ii) other catchment area child;
  - iii) non-catchment area child;
  - iv) non-school district child.
- e) If space and facilities are inadequate to accommodate all continuing students, continuing students will be re-enrolled in the following descending order of priority, subject to any permitted sibling preference:
- i) continuing catchment area student;
  - ii) continuing non-catchment area student;
  - iii) continuing non-school district student.
- f) Waitlists will be established for those not accepted, to be maintained until September 15 of the next school year, subject to any permitted sibling preference.
- g) Re-evaluation of space availability will take place periodically until September 15 of the next school year to ensure that the maximum numbers of requests are met at the earliest time possible.
- h) Applicants for enrolment in Kindergarten programs and district choice programs will be separately prioritized in accordance with the priorities set out in paragraph 2.4.

### 3. **Tie-breaking**

When applications made within time have the same priority (after application of any permitted sibling preference), priority as between them will be determined by time and date of application unless a determination is made by the board, the superintendent or the superintendent's designate to determine priority by lot.

### 4. **Alternate Enrolment Process for Continuing School District Students**

Continuing students (except for non-district children) are not required to apply. They will be automatically enrolled in the applicable educational program or school, subject to space availability and to meeting program requirements, unless transferred or withdrawn. (Continuing non-district children are required to submit an application form.)

**5. Dates for Applications to Enrol and Enrolment**

- a) Application for transfers must be submitted on or before March 15 of each year, subject to section 5.2.
- b) Before February 1 in each school year, the board may establish dates other than March 15 for submission of applications to enroll.

The board may establish different dates for different grades, educational programs, schools, or categories of applicant.

- c) Applications received after the dates established will be subject to the priority of those applicants who applied within time and will be accepted or rejected by the superintendent or designate.
- d) The application form attached to this management regulation will be used.

**6. Guarantee of educational program**

School district children who apply for enrolment in an educational program will be provided with an educational program in the district, unless a parent of the student consents to a placement outside the school district.

**7. Commitment**

- a) The district process shall encourage children (if of appropriate age) and their parents to jointly consider the children's educational needs before requesting an assignment to a school other than the current school or the catchment area school.
- b) Applicants may apply for more than one educational program but may only be enrolled in one. When applicant is offered and accepts enrolment in an educational program (in or out of the school district), applications for all other programs become invalid.
- c) The superintendent or designate is authorized to enter into reciprocal agreements with other school districts to review wait lists and enrolment information in order to enforce this policy.

**8. Program Requirements**

Applicants for enrolment must meet all program requirements for the requested educational program and will be subject to any selection process established for that program.

9. **Discretionary Acceptance: Suspended or Expelled Non-School District Students**

- a) Enrolment applications from non-school district children may be refused if the child:
  - i) is under suspension from a BC public school or school district, or
  - ii) has been refused an educational program by a BC public school board under s. 85(3) of the *School Act* for refusing to comply with the code of conduct and other rules and policies of the board or has failed to apply himself or herself to his or her studies.
- b) Such applications will be referred to the superintendent or designate for a decision on admission. Admissions may be made subject to terms and conditions. A student who has been admitted under this section are not entitled to the status of a continuing student in the following year unless approved by the school principal or superintendent's designate.

10. **Sibling Preference**

Subject to the *School Act*, when one sibling is enrolled in or admitted to an educational program in a school (other than as a result of a disciplinary transfer), other siblings are given priority within their requested educational programs in the same school. This preference does not apply where the siblings will not be attending concurrently.

11. **Communication**

Application periods and enrolment dates will be communicated to the school communities and to the community at large and may also be communicated to other communities within and outside the school district.

12. **Transportation**

- a) Students who transfer to a school outside their regular catchment area are not entitled to school bus transportation or transportation allowance.
- b) Notice of this regulation shall be provided to parents on the request for transfer form.
