

Administrative Procedure 2013

*Insurance Coverage for Trustees and Volunteers*

School district employees, through normal group life insurance policies and workers' compensation benefits, are "insured" in case of personal accident while on the job. However, members of the Board of Education and volunteers are not.

Basic coverage for trustees and volunteers will be provided under the school district's blanket insurance policy as follows:

1. Trustees. For injury sustained while performing the usual and necessary duties as a trustee, including travelling directly to or from any scheduled meeting of the district.
2. Volunteers. For injury sustained while and in consequence of performing regular and assigned duties of the volunteer occupation with the district, while under the direction and control of the district.
