

Administrative Procedure 6003
International Student Program

The Board of Education recognizes the benefits of cultural diversity and enrichment in its schools and communities, and encourages the enrolment of international students in its International Student Program. Student placements are based on individual goals, academic levels and availability of resources, providing placement does not result in the exclusion or displacement of any resident student.

The attached board and management regulations detail the guidelines and specific requirements of the program, *and are in the context of the following goals of the program:*

- a) to provide an additional revenue source to the district that helps support, sustain and develop quality programs;*
- b) to provide a quality program that meets the individual and unique needs of each student in School District 71 (Comox Valley);*
- c) to help facilitate the creation of a community that honours and strengthens diversity and global connectedness.*
