

ASSIGNMENT OF STUDENTS TO CLASSES

It is the goal of the Sunrise School Division that every student be placed at an appropriate academic level in which the student can achieve success with the appropriate effort. This determination will be made by the principal in consultation with parent(s)/guardian(s) and teachers and in reference to the student's age, previous school's recommendation and available learning assessments.

The decision of the principal will be final regarding placement of students at a grade level or the reassigning of students within classes.
