

**STUDENT EXTRA-CURRICULAR TRANSPORTATION**

Extra-curricular transportation must be requested through the principal and will be approved by the Transportation Manager. These requests become the records and reports for those trips.

The cost of such transportation will be charged against the school's transportation budget.

Where a school or schools are representing the division in finals at the provincial level, the school(s) may request that the Board pay for such transportation using division funds. See also DKC, EEAG.
