***Student Travel***

The Board of Education recognizes and supports educational opportunities outside the school environment.

Student travel significantly contributes to student learning by:

- Developing and engaging a variety of learning styles
- Creating new relationships
- Promoting cultural and/or heritage development
- Honoring diversity of ability and perspective
- Reinforcing and/or extending conceptual understanding
- Promoting lifelong learning
- Providing learning experiences in alternate environments
- Offering a broad range of curricular and extra-curricular opportunities
- Providing opportunities that are not normally available to students.
