

District Track Lane Assignments

Please let your students at the district track meet know what lanes they will be running in. I am hoping that, with the students knowing what lane to be in, it will speed up the marshalling organization at the starting line.

When running the sprints, I would like to heat one of group A, then heat one of Group B... this will be followed by.... Second heat for group A and then 2nd heat of group B.

When running the 400 and 800, the students will be grouped in their lanes. (ex Airport and Puntledge will share lane one, students who are ones will be in front of the second ranked teammate. All the students will then merge into lane one.

As the day goes on, the marshalling will get faster as the students know where to go.

Group A

1. Airport
2. Arden
3. Aspen
4. Brooklyn
5. Courtenay
6. Cumberland
7. Robb Road
8. Denman

Group B

1. Puntledge
2. Miracle Beach
3. Huband
4. Queneesh
5. Royston
6. Valley View
7. CSF
8. NIDES

For the relays. the students will be put into their groups, and then sent to each corner knowing what lane they are in AND whether they run first (Group A) or second (Group B).
